## DETERMINED TO END LAWLESSNESS

Will Add 500 to Police Force to Protect Women and Children From Outrages.

New York, Aug. 5.—The wave of crimes against women and children which has swept over New York in the last fortnight has reached a stage where heroic measures are being taken in the attempt to end the lawlessness.

Accordingly, Police Commissioner O'Keefe late today issued orders directing every policeman officer in the city to lay aside all other work and devote himself entirely to the duty of bringing to justice the perpetrators of these crimes. He ordered that home to home visits be made by all officers on regular beats and that parents be advised to keep their children under close supervision. He also announced that he would set an appropriation sufficient to add 500 officers to the force.

The police today arrested four brothers, Thomas, Louis, George and James Kapito, believing that they could throw some light on the crime of little Katie Fieschler, whose mutilated body was found in a cellar at First avenue, later Thomas and Louis were discharged.

An Italian living his name as Mario Salvo was arrested today on a charge of attempted assault on Annapolis, a young girl living in Brooklyn. Frank Powers, proprietor of a lunch room, was arraigned in Yorkville court today and held for further examination. Three young girls testified that Powers offered them money to walk in Central Park with him.

## PHILIPPINE ELECTIONS.

Conservative Nationalists Are Assured of Victory, Return Not At All.

Manila, Aug. 5.—The election returns are still incomplete, but sufficient returns are in to insure a victory for the Nationalists. It is estimated that over 90 per cent. of those that returned voted. The leaders already are discussing the policy to be followed and the resolutions that will be made by the assembly. They want independence, freedom to carry arms and jury trials, and demand a readjustment of the national members of the Philippine commission as to give the Nationalists representation on the commission. Guerrero will probably be elected one of the delegates to the assembly. The other delegates have not yet been named. Guerrero of Cebu, who is regarded as a strong Conservative, will probably be the speaker of the assembly. Indications are that the Conservative Nationalists will fight the Gomez faction for control of the party. The leaders declare that Gomez was elected by the American negro vote and not by the Filipinos. Gomez's majority is 34, while his election was rejected by the latter to support the American government.

**Terrible Explosion in Winona.**  
Winona, Minn., Aug. 3.—Fire following an explosion in the Winona Railroad and Navigation Company's coal shed at Winona, Minn., killed R. E. Buchanan, chief inspector, in used 20 people and almost wiped the town out of existence last night. Several residents say the explosion was caused by the ignition of dynamite which was stored by the company last night. The spark from a dynamite set fire to the depot and the explosion occurred in the shed adjoining. The company denies there was dynamite in the shed. The coroner's inquest is in progress.

## FAITHFUL TO HER EMPLOYERS

Servant Girl Tried to Prevent Robbery at Probably Cost of Her Life.

New York, August 5.—Sophie Heckler, a servant girl, probably gave her life today in an attempt to prevent the robbery of her employers. Leo and Harry Mack, having been living since last summer in their home in East Second street, their families being in the country. Sophie Heckler was employed by them. This morning the brothers left the house at nine o'clock, and at noon one of them sent a package to the house, which was received by the girl. About four o'clock in the afternoon a man passing the house saw smoke issuing from a window on the second floor. He turned in a fire alarm. The fire, which was started in a closet on the second floor, was quickly extinguished, the loss being small. The firemen found the house in disorder. Carpa had been torn up, bureau drawers empty and furniture strewn about. The Mack brothers were notified and returned home. They found that the house had been ransacked and jewelry worth \$7,000 taken. The servant girl was not to be found. Finally the brothers went to the cellar, through the door at the head of the stairs was bolted. At the foot of the stairs they found the girl's body. The front of her head had been beaten in and her clothing was covered with blood. The police are unable to solve the mystery, but it is the general opinion that the girl was killed by the robbers and her body thrown into the cellar.

The last name of the man was not revealed. They know that "Jake" was so well acquainted with the girl as to have her confidence. He is said to have been familiar with the furniture at 86 First street, known to the Messner woman and to the cobbler. He has not been seen since the child was lured away. His description corresponds with that of a man, who with a woman, was seen leaving the house at 12:30 street station of the subway. The police appear certain of arresting the man in a few hours.

## Contractors Kidnaped.

Mexico City, Aug. 4.—The sequel of the dramatic story of the capture of the steamer *Matoni King* was told at the Chinese legation here today. Some months ago the vessel left the Atlantic coast, carrying 100 Chinese and 500 Mexicans. Investigation has disclosed the fact that the Chinese were kidnaped. The men were employed near Vladivostok on the trans-Siberian railroad. Three contractors persuaded them to board the steamer on a promise to take them to a place called Mexico, which the contractors declared was situated in China, near Kiang Kiang. After twelve days and no land had been sighted, the Chinese became alarmed and threatened to turn back. The contractors, who had remained on board, the man's life was saved by the captain, who locked him up in a stateroom. Later, as has been published, a pitched battle was fought between the Chinese and Russians. When the steamer put in at San Diego, Cal., twenty armed Mexicans boarded the ship and acted as guards on the trip, south to the port of Guaymas, Mexico. Here the quarrel between the Chinese and the Mexicans was prevented by the Chinese and the men again became alarmed, fearing that they would never reach the port of Mexico. They defied the officers and took possession of the lower deck, making for the shore in boats while resistance was asked from the Mexican government and a gunboat. The lighter tender turned back. They were now working up San Diego Bay and are pledged with the other boat.

**CALGARY OVERWHELMED.**  
After leading for first three innings Chicago lost to Hat.  
Medicine Hat 4, 4.—After Calgary had apparently clinched yesterday's game by making only one out, the visiting team came back and shut out Medicine Hat for the fourth inning. Zimlage hit for one deep center, but the home team full and tied the score. The locals made four more runs in the seventh and eighth, and in the ninth, Pitman was tried in the box by the Hat, but was bottled for five hits and four runs in an inning, and a third. Then Works went in, and only after three wasted hits to be made during the balance of the game.

**SHORT STUFF.**  
Harper was hit on the head in Lethbridge on Saturday and was compelled to retire.  
Benny will be as happy as a kid with an all-day skating party, and will struggle from Calgary.

The Legislators have lost three in a row. They are due to win and it would pull the fans out by their ears if they put on the Hat for the whole series.

Medicine Hat and Calgary played a rubber training in the game Saturday evening. The score was 2-2, when the game was called on account of rain.

O'Donnell, who was traded to the Hat by Calgary, is doing good work for Benny. O'Donnell was one of Calgary's most valuable men, and the Hat looks to have got the best of the deal.

**THE BRIGHTON BEACH.**  
New York, Aug. 3.—Brighton Beach had a brilliant evening today, the racing was thrilling to spectators. With perfect weather and an attendance of 25,000, the famous and the Brighton Derby was under ideal conditions. Through the race itself was rolled of much interest by the withdrawal of all but ten entries, Charlie Edwards and Frank Smith, who were for the \$10,000, and the former won by four lengths in the race.

A record for the Brighton race, and for the world's record of a second in half, the time was 2:20.30, and Charlie Edwards was a 2 to 5 favorite.

For the Legislators. Game at Lethbridge Called in the Fourth.

The Legislators were billed to play two games in Lethbridge on Saturday, but rain prevented. No attempt was made to pull off the afternoon game, but the fans here are looking for at least an even break.

The Miners are now in a position to either make a strong bid for first place, or to be beaten. If they win from Calgary they will have a good chance. The standing of the Legislators at the end of this series should be about the relative standing at the close of the season. Benny's home team to have got away from its hoodoo, and the Miners in this series they will probably find out how strong they are.

Edmonton's two new players join the team there should be something doing both men are good hitters.

## WAS HE HELD UP BY ARMED MEN?

Story of J. H. Nigh to the Effect That he was Relieved of \$120 Sunday Morning.

Early yesterday morning J. H. Nigh, a young man who has been employed in the Great West Life Insurance Co., was held up by two armed men on the street near the police station.

Nigh stated that as he was going along the boulevard, which is quite dark at the place of the alleged holding, he was suddenly seized by two men who were armed with revolvers and who threatened him with \$120, all that he had in his pockets.

When the information was handed in Constable Hagg accompanied the supposed victim to the place where the holding had taken place but there was no trace of the men.

The police look with some degree of suspicion upon the story especially as the alleged victim had still in his possession a gold watch and some bills. It is considered probable that the robbery is said to have taken place.

The police are today looking into the story and will act in accordance with the information that they obtain.

It is considered probable that the information may be laid against Nigh himself by a woman from whom he had taken some rings at the stable where he was employed previous to his discharge yesterday morning.
